Company policies, substantial financial investments, strategic alliances, discussions with the board, stakeholder management, and other top-level managerial tasks are often high-risk high return decision-making initiatives in nature. Top-level management roles are therefore often high stress and high influence roles within the organization.

**Management Levels and Types | Boundless Management**  
P2 Advanced Management Accounting. Aim of the syllabus. Focusing primarily on the long term, P2 builds on the insights about costs and their drivers (from P1) to provide the competences needed to analyse, plan and manage costs to support the implementation of the organisation's strategy.

**CIMAStudy Management Level**  
Management is an aspect of the business that doesn't have the same specific duties some of the other parts of the business have. While an accountant will always know quite clearly the expertise and responsibilities he or she has, a manager needs to have a much broader set of skills, with the tasks ranging depending on the business. Yet, management like all the other parts of the business ...
