Definition. Narrative ethics explores the intersections between the domain of stories and storytelling and that of moral values. Narrative ethics regards moral values as an integral part of stories and storytelling because narratives themselves implicitly or explicitly ask the question, "How should one think, judge, and act—as author, narrator, character, or audience—for the greater good?"

This paper addresses a current debate in the bioethics community between principlists, who consider that principles are at the heart of moral life, and narrativists, who see communication at its core. Using a case study entitled "The forgetful mourner" to introduce the tensions between each of these positions, I go on to explain the central tenets of both principlism and narrative ethics.
