Stephen Mumford puts forward a new theory of dispositions, showing how central their role in metaphysics and philosophy of science is. Much of our understanding of the physical and psychological world is expressed in terms of dispositional properties - from the spin of a subatomic particle and the solubility of sugar to a person's belief that zebras have stripes.

Stephen Mumford: 'Dispositions', *Routledge Encyclopedia of Philosophy*, www.rep.routledge.com Dispositions Disposition is a term used in metaphysics usually to indicate a type of property, state or condition. Such a property is one that provides for the possibility of some further specific state or behaviour, usually in

Dispositions

Stephen Mumford has made an important suggestion that disposition ascriptions, as opposed to categorical ones, entail appropriate conditionals as a matter of conceptual necessity. This suggestion can be alternatively presented in the form of the requirement that dispositions be properties whose essence includes their conditional character.
