This is a strong tool to power your creative thinking. It gives you the ability to find and explore fresh perspectives. It was popularized by Rowan Gibson, the world-renowned innovation expert and thought leader, in his book: The four lenses of innovation. It looks inside the human mind and recognizes how it actually generates new ideas.

The four lenses of innovation | EgyptInnovate

The fourth lens of innovation is really understanding our customers needs. Customers don't often tell us exactly what the next product is or the innovation is that they want us to give them. Henry Ford once famously said if he had asked his customers, he would have built a faster horse.
