Where To Download The Book Of Universes John D Barrow

A guided tour of conceptions of the universe, from the beginnings of modern science to the present. After a brief look at the cosmological ideas of the ancients, Barrow (Mathematical Sciences/Cambridge Univ.; 100 Essential Things You Didn't Know You Didn't Know: Math Explains Your World, 2009, etc.) moves on to the more rigorous formulations arising once Newton's gravitational theory ...

THE BOOK OF UNIVERSES | Kirkus Reviews

Universes discusses the alleged evidence of fine tuning; mechanisms by which a varied set of Universes might be generated, and whether belief in God could be preferable to accepting universes in vast numbers.
