Addition and Subtraction of Vectors

5 Fig. A.13 shows A to be the vector sum of A_x and A_y . That is, $A = A_x + A_y$. The vectors A_x and A_y lie along the x and y axes; therefore, we say that the vector A has been resolved into its x and y components. The unit vectors i and j are directed along the x and y axes as shown in Fig. A.13. Using the technique of Fig.
